## Report of the Superintendent

---

### *To the School Board of New Castle:*

I hereby render to you my fifth annual report of the public schools of New Castle.

No change has been made in the administration of your schools. The same teachers served us as the previous year and all have rendered faithful and commendable service. In the music, under the enthusiastic direction of Mrs. Poore, the pupils have made excellent progress.

We are endeavoring each year to add something to the equipment, which will render their work more efficient. This year we have added many library and reference books as well as many up-to-date text books.

The pupils who entered the Portsmouth high school in September have done commendable work and have showed the result of careful training.

The most significant advance in the line of material equipment has been the installation of chemical sanitaries at the junior high school. This is a much needed improvement, and I am sure the citizens will approve the small outlay necessary to secure it.

It seems to me that the greatest need of our schools at the present time is the enlargement of the primary room. This can be done if the selectmen can secure another place for their headquarters, and I am told that such a place can be secured at a small outlay for equipment. This change will enable us to remove the partition at the rear of the primary school room and allow that school to occupy the entire ground floor of the building. All of the citizens of New Castle are proud of their primary school and of the work which Miss Trefethen is doing. Let us then support her by giving her a suitable place in which to work.

The attendance at our New Castle schools has been excellent this year. Tests given to the various grades show that pupils are doing work above the average, and the intelligence tests given to grades five to eight inclusive show conclusively that many of our pupils have the mental ability to complete with credit a high school course in Portsmouth and several can undoubtedly sustain themselves in college or in other higher institutions of learning.

The expenditure for the public schools of New Castle per

\$1,000 valuation during the year 1928-1929 was \$7.51. Fifty-three of the 244 school districts in New Hampshire expended less than New Castle.

In conclusion, I desire to express my appreciation of the excellent co-operation which the school board, the teachers and the citizens of New Castle have shown in the school work.

Respectfully submitted,

CHARLES N. PERKINS,  
*Superintendent.*
